

## Technology Spotlight – The Middleby Corporation

*“putting trust on the front burner”*

Tom Stroozas - CFE, RCGC, CFSP  
Stroozas & Associates

Of all the things a company can supply none is more important than trust. This is evidenced at The Middleby Corporation by their strong relationships with suppliers and end-use customers. That high degree of trust is why they have become today's world leader in commercial cooking equipment. Not to mention their relentless improvements with advanced cooking innovations that bring speed, energy savings and green benefits for today's commercial kitchens. According to Middleby's current statistics, their products may be found in one of every three restaurants around the world because they just don't sell products; they provide trust. And they pledge to always keep that prime commodity on their front burner.

### 125 Years of Quality...

The Middleby Marshall Oven Company was founded in 1888 when Joseph Middleby and John Marshall created a partnership with the goal of producing custom designed movable ovens. The two shared a commitment to innovation and product quality that is still at the core of the company today.

Along this journey Middleby Marshall has accomplished significant milestones, most recently installing its 20,000th oven in Domino's 9,999th store in Carlsbad, CA along with exclusive installation in more than 4,000 Papa John's restaurants. Domino's honored Middleby Marshall with its Excellence in Partnership Award in 2012. Other prestigious awards include **GFEN's 2009 "Blue Flame" Product of the Year**, 2010 Caterer and Hotelkeeper Equipment & Supplies Excellence Award, Pizza Hut Supplier of the Year, and inclusion in the NAFEM "What's Hot, What's Cool" pavilion. The WOW!2 Oven, the newest product in the Middleby Marshall family, was named a 2013 NRA Kitchen Innovations Award winner. Middleby Marshall recently added to its awards hall when Domino's Pizza India awarded it the 2013 Business Partners Award, marking the eighth consecutive year Middleby Marshall has earned this honor.

### A Growing Brand Portfolio...

Over the years, Middleby has grown to become the trusted industry leader of commercial foodservice equipment by acquiring well respected name brands to add value and strength to their growing list of recognized worldwide customers. Today's brand lineup includes some of the biggest names in the gas cooking

industry including: **Anets, Blodgett, CTX, Jade, Lang, MagiKitch'n, Market Forge, Middleby Marshall, Nieco, Pitco, Southbend** and **Star**, just to name a few. To learn more about all of the Middleby brands, visit [www.middleby.com](http://www.middleby.com)
